MARK SCHEME

Maximum Mark: 50

Specimen

This document has **6** pages. Any blank pages are indicated.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptions for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptions for the question
- the specific skills defined in the mark scheme or in the generic level descriptions for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptions.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptions in mind.

Candidates respond to two questions. All questions are worth 25 marks. Candidates will write their answers in Spanish.

Examiners should consider the extent to which candidates have been able to respond to the question with reference to the poem(s) or unseen text, and identify its key features.

Assessment objectives

The assessment objectives are evenly weighted across each question. The assessment objectives for the paper are:

AO1

Show detailed knowledge of the content of literary texts in the three main forms (prose, drama and poetry), supported by reference to the text.

AO2

Understand the meanings of literary texts and their contexts, and explore texts beyond surface meanings to show deeper awareness of ideas and attitudes.

AO3

Recognise and appreciate ways in which writers use language, structure and form to create and shape meanings and effects.

AO4

Communicate a sensitive and informed personal response to literary texts

Using the mark levels

Use the generic mark scheme levels to find the mark. Place the answer in a level first. Look for the 'best fit' of the answer into a level. Consider the levels above and below to ensure you have selected the right one.

An answer needs to show evidence of most but not necessarily ALL of the qualities described in a level, in order to be placed in that level. Award a mark for the relative position of the answer within the level.

Candidates may address the question in many different ways; there is no one required answer or approach. Do not penalise answers for leaving out a particular focus. Reward what is there rather than what is missing.
